

eVAL OMR

eVAL OMR is state-of-the-art OMR software for capturing and analyzing data from plain paper OMR sheets. The software captures data from plain-paper sheets containing bubbles. It's simple yet sophisticated User Interface (UI) design makes it very easy to create, process and analyze OMR data for specific user applications.

Simple 3-Step process:

1. **Design and Print your own OMR Sheets using Microsoft Excel based Form Designer**
2. **Scan OMR sheets and use eVAL to recognize data**
3. **Statistically analyze your data and export to Microsoft Excel and PDF**

Get rid of Manual Data Entry

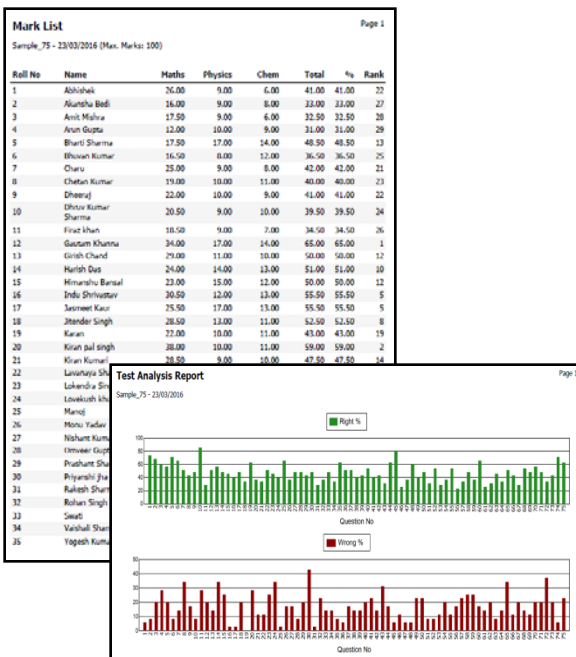

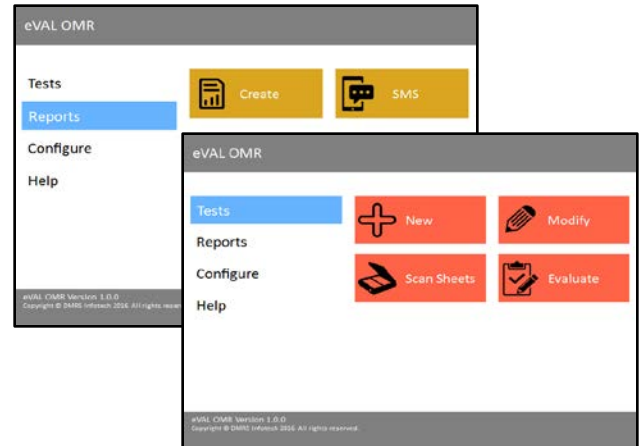

eVAL OMR collects data from plain paper OMR sheets, such as tests, evaluations, assessments, surveys and others quickly and accurately. This results in a faster turnaround time and 100% accurate results. It is a perfect blend of advance features and simple intuitive user experience. Processing OMR sheets and analyzing data has never been easier!

Built-in Analytics and Reporting

eVAL OMR contains a powerful Analytics and Reporting module, used to analyze your data and effortlessly produce professional reports and graphs. All reports can be exported to various formats, including Microsoft Excel, CSV and PDF.

Main Features

- Recognizes optical marks (bubbles) with 100% accuracy from plain paper sheets
- Large number of ready to use Templates
- Very simple easy to use Microsoft Excel based Form Designer to modify existing and create new sheets
- High speed OMR sheets recognition
- Advance Analytics and Reporting module
- SMS module – allows to send the results as SMS
- Exports data to various formats (CSV, Excel, PDF etc.)
- Best suited for quick & accurate evaluation of sheets such as tests, evaluations, assessments, surveys etc.

Key Benefits

- Eliminate manual processing, resulting in faster turnaround time
- Works with plain paper OMR sheets:
 - Standard 70-100 gsm A4 paper
 - No special printing needed – can be printed on normal printers or MFPs
 - Photocopied OMR sheets can be used
 - Multiple standard templates available
 - No special design software needed – OMR sheets design and modification can be done with MS Excel based Form Designer
- No special scanner needed – OMR sheets can be scanned using standard Flatbed/ADF scanners
- Result distribution using intuitive SMS module
- Low cost, flexible and easy to use solution

About DMRS Infotech

DMRS Infotech is an innovation driven organization with strong focus on digitization, imaging and computer vision technologies. We strive to provide best technology solutions that enable our customers to meet their business objectives.
